

SUMMER SCIENCE CAMP AGES 10-15

CIRCUIT WAR: BATTLE BOTS CHALLENGE JULY 15 - 17, 2025

Young engineers and tech enthusiasts will embark on an electrifying adventure into the world of electronics and circuit building! Designed for ages 10-15, this camp allows campers to explore the exciting world of circuits, technology, and engineering while engaging in friendly competition. Through hands-on projects, challenges, and team-based activities, campers will design, build, and test their own circuits to take on unique challenges and go head-to-head in a series of thrilling circuit wars!
